EDUCATION

Georgia Institute of Technology , Atlanta, GA	Aug 2026 - May 2028
<i>Bachelor of Science, Computer Science</i>	
Santa Monica College , Santa Monica, CA	June 2026
<i>Associate of Science, Computer Science</i>	GPA: 4.0/4.0

SKILLS & TECHNICAL TOOLS

Programming Skills: Python, C++/C, Java, JavaScript, TypeScript; Familiar with SQL
Technology: Scikit-learn, Pandas, NumPy, Jupyter, Matplotlib, React, Node.js, Next.js, TanStack Query, Zustand, PostgreSQL, Drizzle ORM, Firebase, Git
Completed Coursework: Data Structures & Algorithms, Linear Algebra, Discrete Math, Multivariable Calculus, Digital System Design
Spoken Languages: English (Proficient); Mandarin (Proficient); Burmese (Native)

PROGRAMMING PROJECTS

RAG Study Assistant - Team Project <i>TypeScript, React, Express, Supabase, Redis, BullMQ, PostgreSQL, R2</i>	In Progress
- Collaborating in a 5–6 member team to build a full-stack RAG study assistant that generates context-aware explanations, practice tests, and flashcards from user-uploaded course materials. - Developing an asynchronous document-processing and retrieval pipeline using Redis to support semantic search & personalized weak-point tracking.	
AI Research Agent <i>TypeScript, React, Express, Supabase, Redis, BullMQ, Exa, PostgreSQL</i>	In Progress
- Building an AI research agent that generates research plans, searches the web, evaluates sources, and synthesizes findings into reports with citations. - Engineered an asynchronous planning and search pipeline with Redis and BullMQ that revises queries, evaluates evidence quality, and launches follow-up searches to close coverage gaps.	
Bond – Social Media Platform <i>TypeScript, React, Express, PostgreSQL, Socket.io, JWT</i>	July 2026
- Built a social platform with real-time messaging, along with TanStack Query and Zustand for responsive UI state changes - Designed a friend suggestion using two-hop BFS graph traversal over the follow graph, and a presigned-URL upload flow to Cloudflare R2 for direct image uploads	
myCloud – Cloud Storage <i>TypeScript, React, Next.js, Firebase, Stripe, R2</i>	May 2026
Built a cloud storage app using Firebase Auth and Firestore for user management, with a presigned-URL upload to Cloudflare R2 and STRIPE for subscription-based storage.	
Salary Prediction Model <i>Python, Jupyter, scikit-learn, pandas</i>	Mar 2026
Built an end-to-end ML pipeline predicting job salaries from Kaggle data using KMeans geo clustering, a scikit-learn Column Transformer, and 10-fold cross-validated RMSE on Linear Regression & Random Forest models.	
Navigation System <i>C++</i>	Mar 2025
Built a program to calculate the shortest route between two points using Dijkstra’s algorithm & prototyped the A* algorithm.	
6 Degrees of Separation <i>C++</i>	Dec 2024
Implemented a BFS search on the IMDB dataset to demonstrate the six degrees of separation concept with graphs, hash maps & vectors.	

EXPERIENCES

Shift Lead @ Melo Melo Coconut Dessert , Los Angeles, CA	Feb 2025 – Nov 2025
- Developed an Excel-based inventory system deployed across 11 stores to improve stock tracking & reduce food waste - Oversaw daily store operations and trained staff to ensure excellent customer service	

LEADERSHIP & COMMUNITY INVOLVEMENT

Project Manager @ GT WebDev , Georgia Tech	Sep 2026 - Present
Leading on a team of 5 to work on a full-stack RAG model project - AI Study Assistant App	
Vice President of Scholarship @ Phi Theta Kappa , Santa Monica College	Feb 2025 – Jun 2026
Revived the Chapter Tutoring Program with 7 tutors & coordinated scholarship workshops	
Honors in Action Research Project Lead @ Phi Theta Kappa , Santa Monica College	Sep 2025 – Jan 2026
Directed a multidisciplinary team of 4 throughout the PTK Honors in Action project cycle and achieved 3rd place in the NV/CA Region	
Website Committee @ Alpha Gamma Sigma Honor Society , Santa Monica College	Mar 2025 – Jun 2025
Maintain, update, and edit the AGS website	

HONORS & AWARDS

- 3rd Place, Honors in Action Research Project | Phi Theta Kappa, NV/CA Region (2026)
- Jack Kent Cooke Transfer Scholarship Semifinalist | Jack Kent Cooke Foundation (2026)
- 6th Place at AMATYC Student Math League | College Level, Santa Monica College (2026)
