Zaw Lin Than

Atlanta, GA 30318 | zthan3@gatech.edu | (424) 877 2669 | github.com/ZawLinThan | zawlinthan.vercel.app

EDUCATION

Georgia Institute of Technology, Atlanta, GA — Aug 2026 - May 2028
Bachelor of Science, Computer Science | *Threads: AI & Information Internetwork*

Santa Monica College, Santa Monica, CA — Jan 2024 - Jun 2026
Associate of Science, Computer Science — GPA: 4.0/4.0

SKILLS & TECHNICAL TOOLS

Programming Languages: Python, C++/C, Java, JavaScript, TypeScript, SQL
Tech Stacks: Scikit-learn, Pandas, NumPy, Jupyter, Matplotlib, React, Node.js, Next.js, TanStack Query, Zustand, PostgreSQL, Drizzle ORM, Firebase, Git, BullMQ
Spoken Languages: English (Proficient); Mandarin (Proficient); Burmese (Native)

PROGRAMMING PROJECTS

RAG Study Assistant | *TypeScript, React, Express, Supabase, Redis, BullMQ, PostgreSQL, R2* — In Progress
- Collaborating in a 6-member team to build a full-stack RAG study assistant that generates context-aware explanations, practice tests, and flashcards from user-uploaded course materials
- Developing an asynchronous document-processing and retrieval pipeline using Redis to support semantic search & personalized weak-point tracking

AI Research Agent | *TypeScript, React, Express, Supabase, Redis, BullMQ, Exa, PostgreSQL* — In Progress
- Building an AI research agent that generates research plans with a LLM, searches the web with Exa, evaluates sources, and synthesizes findings into reports with citations
- Engineered an asynchronous planning and search pipeline with Redis and BullMQ that revises queries, evaluates evidence quality, and launches follow-up searches to close coverage gaps

Bond – Social Media Platform | *TypeScript, React, Express, PostgreSQL, Socket.io, JWT* — July 2026
- Built a social platform with real-time messaging, along with TanStack Query and Zustand for responsive UI state changes
- Built a friend recommendation feature using two-hop BFS graph traversal over the follow graph, and a presigned-URL upload flow to Cloudflare R2 for direct image uploads

myCloud – Cloud Storage | *TypeScript, React, Next.js, Firebase, Stripe, R2* — May 2026
- Built a cloud storage app using Firebase Auth and Firestore for user management, with a presigned-URL upload to Cloudflare R2 and Stripe for subscription-based storage

Salary Prediction Model | *Python, Jupyter, scikit-learn, pandas* — Mar 2026
- Built an end-to-end ML pipeline predicting job salaries from Kaggle data using KMeans geo clustering, a scikit-learn Column Transformer, and 10-fold cross-validated RMSE on Linear Regression & Random Forest models

Navigation System | *C++* — Mar 2025
- Built a C++ navigation system that finds routes through a weighted, directed graph using A* search and a latitude/longitude-based heuristic; previously implemented Dijkstra's algorithm

EXPERIENCES

Shift Lead @ Melo Melo Coconut Dessert, *Los Angeles, CA* — Feb 2025 – Nov 2025
- Developed an Excel inventory and production planning system that used sales and waste data to estimate daily dessert quantities; deployed across 11 stores to improve stock tracking and reduce food waste.
- Oversaw daily store operations and trained staff to ensure excellent customer service

LEADERSHIP & COMMUNITY INVOLVEMENT

Project Manager @ GT WebDev, *Georgia Tech* — Sep 2026 - Present
- Leading a team of 6 to work on a full-stack RAG AI Study Assistant application

Vice President of Scholarship @ Phi Theta Kappa, *Santa Monica College* — Feb 2025 – Jun 2026
- Revived the Chapter Tutoring Program with 7 tutors & coordinated scholarship workshops

Honors in Action Research Lead @ Phi Theta Kappa, *Santa Monica College* — Sep 2025 – Jan 2026
- Directed a multidisciplinary team of 4 throughout the PTK Honors in Action project cycle to study the power of negative emotions on one's future development and achieved 3rd place in the NV/CA Region

HONORS & AWARDS

- 3rd Place, Honors in Action Research Project | Phi Theta Kappa, NV/CA Region (2026)
- Jack Kent Cooke Transfer Scholarship Semifinalist | Jack Kent Cooke Foundation (2026)
- 6th Place at AMATYC Student Math League | College Level, Santa Monica College (2026)
